Group, Inc.

What is Collateral Protection Insurance?

- Provided By Dealers to Customers who can not provide full coverage insurance for a vehicle
- Provides the customer's vehicle with the proper coverages a Dealer requires to adequately protect their asset

CPI is available from your insurance company. If you are unable to obtain coverage from your auto insurance company the dealer will place this coverage for you. This gives the dealer more options. With CPI you have more choices to choose from, both with coverage and on the car lot

"When an insurance company says no, we provide products for customers and dealers to get the right collateral insurance coverage at the right price."

- Strategic Admin

Unprotected? Don't be this guy!
